

NATIONAL TAIWAN UNIVERSITY PROMOTION LETTER

POST-DOCTORAL FELLOWSHIP PROGRAM

To promote and seek for more international research cooperation between National Taiwan University (NTU) and Central/Eastern Europe, NTU took the initiative sending delegates to Czech Republic and Poland in October 2010. Through this visit, we disseminated information about NTU research programs and activities in all fields. This opportunity indeed deepened our understanding towards Central/Eastern Europe.

As for NTU, we initiated two programs designed exclusively for Central-Eastern European researchers: 1) Sharing Precious Instrument Program, and 2) Post-doctoral Fellowship and Position Openings. Each program applies to different application and funding schemes. Please refer to the information website below for more details. It is hoped that the launching of these two programs will open a broader channel for mutual research cooperation between Taiwan and Central/Eastern Europe.

Meanwhile, we would like to wish you a happy and prosperous Year of the Rabbit. Happy Chinese New Year!

Ji-Wang Chern
Dean, Office of Research & Development
National Taiwan University
